Valuable Readers,

As 2019 comes to a close it is time to celebrate a great year for Global Strategic Management (JGSM). We are living the happiness of filling the 13th year in the field of Global Strategic Management. We have published 25 numbers so far. We contributed to the field of strategic management by publishing original articles from many countries of the world for the first time. As the interest from academicians and researchers from all around the world has been increasing about our journal, it is my great pleasure to introduce you the 13.1th edition of Journal of Global Strategic Management. Strategic management is a concept that holds the aim of achieving the goals and objectives of organizations in the long term. As one of the most researched disciplines, Global Strategic Management includes a wide range of subjects about business management area. For this reason our journal is devoted to develop the core understanding of global strategic management and management theory; we try to welcome a diverse range of papers concerned with all aspects of strategic management which rely on statistical inference, qualitative/quantitative studies, conceptual and computational models.

We are very pleased and thankful to all of the members of Editorial Board, Advisory Board and Peer Review Committee for their remarkable help issuing this journal successfully.

We also would like to thank you all for your strong support and contribution to JGSM. We hope you will keep contributing to JGSM to make it an even better outlet for publishing the very latest high quality empirical and theoretical studies in general management with important tactical implications.
